

English

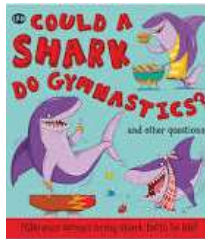

Listen to the story on the **school website** called 'Could a Shark Do Gymnastics?'

It is a different type of book because it tells us facts about sharks in a fun way.

Can you tell your adult 5 facts you learn about sharks from the book? Remember to share your ideas in sentences.

Like this:

Great white sharks can grow up to six metres.

Maths

How many teeth does a shark have?

Do you think this is more or less than the number of teeth you have?

1. Can you count your teeth?
2. How many teeth do you have?
3. How many baby teeth?
4. How many adult teeth?
5. Do you have any missing?
6. How many should you have?

Practice writing all these numbers correctly.

Try this!**PSHE**

Practise cleaning your teeth.

Talk with someone in your family about why it is important to have healthy teeth and how to look after them well.

Thought of the day

"The most certain way to succeed is always to try just one more time."
Thomas A. Edison
