

English

Before half term, you thought if you had a pet dragon what you would call it and drew a picture of it. Have a look for that learning, if you cannot find it or want to change it, have a go at it again. Add some more information to your picture. What does your dragon eat? Where does it sleep? Does your dragon have any special powers? Does it cause any problems, Flicker has poo that explodes? Add notes to your picture. Save your work for tomorrow!

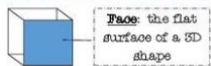

Storytime

Watch Mr Dobbs read chapter 13 of 'The Boy Who Grew Dragons'.

Maths

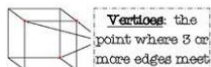

Properties of a 3D shape

Face: the flat surface of a 3D shape

Edges: where two faces meet

Vertices: the point where 3 or more edges meet

Look at the 3D shapes that you found around your house yesterday. Choose one or two of these shapes and find the properties of these shapes and make a poster about it.

Find out how many faces, edges and vertices there are in each shape.

What objects at home are this shape?

This week's battles:

3Z v 3T

3N v 3B

Before half term winners:

3B

3Z

Try this!

Geography:

Settlements

Watch the video and read the information on BBC Bitesize

<https://www.bbc.co.uk/bitesize/topics/zx72pv4/articles/zrbvjhv>

Complete the following:

- What is a settlement?
- Write a list of types of settlements.
- Write 3 examples of functions settlements have.

Thought of the day

“Make each day your masterpiece.” – John Wooden
