

Year 1 Daily Home Learning

Friday 5th June 2020

English

Using the facts you found yesterday can you draw some pictures and write some sentences about **your** chosen animal?

Sharks

Did you know that sharks have 240 teeth?

They have long, bendy bodies.

They can grow up to 6 metres long.

A dwarf lantern shark grows to only 20 centimetres. That's only as long as a sheet of writing paper.

Great white sharks eat seals and fish.

Maths

In the book the shark would eat a lot of sausages.

Can you solve this sausage problem?

There were 7 sausages on the BBQ. 3 sausages were eaten, how many were left?

Draw a picture to help you.

Can you make your own sausage eating problems?

Try this!

Music

<https://www.youtube.com/watch?v=XqZsoesa55w&vl=en>

Sing along and dance to the song – Baby Shark!

Thought of the day

“Nothing is particularly hard if you break it down into small jobs.”

– Henry Ford
