

English

No link today! Apart from for the website:

<http://gpa.education>

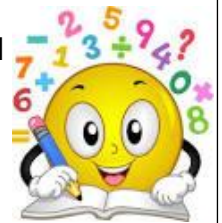

The planning grid is on there for you and the video for today's writing is also there. ENJOY!

Maths

This week, we're challenging you to create a Lunar Theme Park. There's a video with an explanation of what to do and there are resources available from <http://gpa.education>

This should last you the week and you can make as many changes as you would like as you go. When you're happy with your finished park, CHECK to make sure you followed all the instructions and then send it our way!

Curriculum Learning

Extended Topic: From your learning in History, Geography, Science and RE from last half term, select one and produce a 3D model, poster, powerpoint presentation, fact file, leaflet, information booklet, or video to share your learning with others. You can choose the subject, the medium, and how long you want to spend doing it. When you have completed any of your projects for this learning, please make sure to share it with an adult from school – we want to showcase as much of your hard work as possible!

Thought of the day

“Always put your best foot forward.” – No matter what task you do, always put your best into it. Are you?

PLEASE LET AN ADULT AT SCHOOL KNOW IF YOU ARE STRUGGLING TO ACCESS ANY OF THE HOME LEARNING.
