Fluency

LO: To add 3 digit numbers using formal written methods of columnar addition.

Success Steps:

1. Identify the value of each digit.
2. Write the numbers in columns.
3. Line up the digits correctly.
4. Use the correct symbol to identify the operation.
5. Begin adding in the ones column.
6. Exchange if necessary.
7. Next, add the tens column.
8. Finally add the hundreds column.
