23rd April 2020

Dear Parents and Carers,

Year 5 – Online Learning

We are currently making contact with all our Year 5 families to ensure that children are able to access the online learning at home. At the moment school work is added daily to our website, at the link here: <https://www.gpa.education/>

We would like to know:

1. Do you have access to a device that can access the internet?
2. Are you able to access the home learning from the Gladstone website?

To answer these questions please click on the link below (this will take less than one minute!):

Thank you in advance.

With best wishes from all at Gladstone,

The Year 5 Team
