## Money! Money! Money!

Mum and dad have decided that they will give you extra pocket money for helping out at home! But the most that they will pay you is $£ 5$ per week.

| Washing, drying and putting away the dishes | $£ 1.00$ |
| :--- | :--- |
| Vacuuming the lounge | $£ 0.75$ |
| Tidying and polishing the lounge | $£ 0.75$ |
| Tidying, cleaning and vacuuming your bedroom | $£ 2.00$ |
| Weeding the garden | $£ 1.50$ |
| Cleaning the car | $£ 2.50$ |
| Taking out the rubbish/bin | $£ 0.50$ |

What is the least amount of jobs you will have to do to earn $£ 5$ ?

What is the most amount of jobs you will have to do to earn $£ 5$ ?
Think of something that you would really like to buy and find out how much it costs.
Work out how much you would need to save each week and how long it would take you to save up for it.

How much money would you have left after buying it?

Think of the people in your family and your closest friends. Using catalogues, magazines or the internet decide which presents you would like to buy for them for Christmas.

Draw a table showing the name of each person, the present and the cost.
How much money will you need altogether?
How long will it take you to save up this amount?
How many presents will you buy altogether?
